To my patients,

After 41 years of dentistry, I have made the decision to hand over the responsibility of running my practice to a wonderful lady, Dr. Monica Dinca, who wishes to continue the practice with the same ideals and standards I have set forth. I am not retiring and will remain in the practice as Monica's associate, but with a little more time to pursue my other interests. All my staff, Josie, Anne-Marie, Sharon, Pam and Lisa will remain in the practice and therefore the same familiar faces will insure that you will be treated with the same care and consideration as usual.

I want to thank you, my faithful patients many who have trusted in me for so many years, so many of you coming from quite far. Over the next few months, as your checkup comes due, you will have the opportunity to meet Monica. Beginning in the spring, the office will be open longer hours Monday to Friday with one day of extended hours for your convenience.

Monica was born in Romania where she obtained her dental degree in 1998. She comes to the practice with excellent credentials. She practiced for 3 years before immigrating to Canada in 2002 to start a new chapter in her life. She completed a 2 year dentistry program for internationally trained dentists at University of Western Ontario in 2008. Upon graduation she was presented with the Septodont award in oral surgery.

Monica is a fellow of the International Congress of Oral Implantologists and World Laser Institute. She has a special interest in oral surgery, cosmetic dentistry and endodontics, but she equally enjoys family general dentistry. She has had extensive training in placing dental implants and she is a true believer in continuing education to keep up to date with the latest dental technology.

Monica is looking forward to meeting you and your family on your next visit to the office. She is making a long term commitment to both the practice and to the community.

Richard Nurgitz
